## John Palmer Testimonial

Construction & Design, Inc. fully renovated my 1932 Historic Heights bungalow and built a chic and modern 2,200 square ft. two-story addition to the unique home that doubles as my art gallery and studio. Terri took tremendous care in working with the historical integrity of the bungalow while at the same time providing today's modern amenities.

Working with Construction & Design, Inc. was a fantastic decision! Friends often joke with me and ask if I "still speak" to my contractor. I am happy to say that we remain strong and loyal friends—I am proud they were my contractor and I give them referrals frequently. My construction project, while stalled for quite some time before I met Terri, quickly and efficiently came into place after I met her. She made my vision of an all-in-one art gallery, studio and private residence a breathtaking reality. Because of such beautiful construction, my home has been featured in the Houston Chronicle, the Historic Heights Spring Home Tour and Houston Lifestyles Magazine. If you want to deal with first-class professionals and have a productive and positive experience, Construction & Design, Inc. is your only option.

Respectfully, John Palmer

*We Enjoy Making Our Client's...*

*Dreams a Reality!*

We take pride in helping guide our customers through the construction process. We can streamline the process by being the one source of contact for the entire project.

Our passion is seeing something on paper become reality - only furthered by our tenacious spirit to help our clients achieve their goals! We would welcome an opportunity to work with you on your next project and make your dreams a reality! We are proud to say that we are a business based on great testimonials and referrals such as John Palmer!

To view photos of the construction process of John Palmer's Art Gallery/Home, as well as before & after photos, visit our website at [www.cdinctx.com](http://www.cdinctx.com) and click on the "Gallery" button on the right side of the page then select "Heights".
