Letter of Recommendation

To Whom It May Concern:

This letter is being written in support of Terri Robinson of Construction & Design, Inc.

I have known and worked with Miss Robinson for over 15 years on numerous projects ranging from small rehabs of two to three thousand square feet to major projects covering well in excess of 50 thousand square feet.

As the state manager for one of the largest title insurance companies in the United States with over 150 locations throughout Texas I relied on Miss Robinson to oversee facilities management and project control on all construction activities.

Miss Robinson is well versed in the details associated with construction and staging of office space to include space planning and decoration. She is well aware of budget restraints and cost controls.

Most recently as I ventured into my own business I have call upon Miss Robinson to provide her services in planning and building out new offices for our title agency. The one important thing I enjoy about working with her is her ability to provide project services from soup to nuts; and if she is unable to accomplish a request or thinks it isn't in the client's best interest she will tell you and assist in finding alternative solutions.

I highly recommend her to any organization and business that requires her services. She is a hard working profession at her trade with the abilities and attitude to get the job done.

Mark E. Basile

Executive Vice President

Great American Title Company
